

Due to the size of GIS (Geographical Information Systems) data sets, Southern Nevada Water Authority (SNWA) is providing GIS data in a separate format.

For those with ESRI's ArcGIS 9.0 software, an ArcIMS map service has been created by SNWA that includes the GIS data. For those without the appropriate software, an Internet-based GIS data viewer has been created by SNWA and may be accessed using Internet Explorer.

For access to the map service or the viewer, please provide your name, agency, address, e-mail address and phone number along with the type of access you require to:

Lisa Atwood  
Data Resources Analyst  
Southern Nevada Water Authority
